

Patras, 16th of July, 2015

Announcement

Yesterday, 15 of July 2015, OPTIONSNET has signed the sub-grant Agreement with the 3 FI-PPP Frontier Cities accelerator coordinator (New Frontier services), for the project «*Smart App for Management of Yachting Marinas (SaMMY)*».

The project consists of a two-step implementation breakdown. During the first step, OPTIONSNET's technical and commercialisation experts participate in the 3-day *Grantee Mobilisation Bootcamp*, held in Brussels between the 22nd and the 24th of July 2015. A one-month *inception phase* will follow during which the final specifications and requirements for the Technology Development and Pre-commercial & Market uptake phases will be set. Step-two refers to the deployment step (9-month Deployment Phase) consisting of two parallel actions: a) Technology Deployment & End User Trials and b) The pre-Commercial & Market Uptake.

The maximum financial contribution of FrontierCities to the **SaMMY Project** shall be EUR 128,846.86.

SaMMY

SaMMY is a Smart App for the Management of Yachting Marinas, aspiring to be the ultimate travel companion for yachters, skippers and marina administrators. It supports e-booking services for the berth spaces with navigational and parking assistance features, introduces alert mechanisms for various incidents and gives the opportunity to the travelers to explore the Marina zones, enabling mobile guidance. SaMMY is a revolutionary App in the Maritime domain, expanding the up-to-now perception of smart mobility in Yachting Marinas.
